Subject: PAR 211, Microdensitometer Study
of Effects of Processing

Dear Rock,

It has been decided not to engage in the work proposed in the supplements numbers 1, 2 and 3 to this PAR. Therefore, it is requested that the following actions be taken:

1. Cease all work on Par 211 including the preparation of the interim report.
2. Prepare and furnish a cost estimate and firm delivery date for preparation, reproduction and delivery of a final report on results obtained from this study.
3. Prepare and furnish a cost estimate and firm delivery date for production and delivery of the four attached briefing aids. Charts 4, 5, 6 and 7 are to be changed as shown thereon; in chart no. 4 the word "aerial" is changed because it implies that the film has been exposed and processed. Charts numbers 1, 2 and 3 are not to be used and are therefore deleted.

Sincerely,

Declass Review by NGA.

W11
